

Timing/period	Industry / business categories	Business process analysis / Evaluation / Grand Design / improvement	System integration / implementation
1 1996-1997	Semiconductor manufacturing	SAP project manager of implementation by 5 modules (FI / CO / SD / MM (WM including) / PP) Big Bang in the first success story in Japan.	
2 1998	Pump manufacturing and sales	Project management support	
3 1998	LCD design and manufacturing	Process design for implementation of SAP	
4 1999	Semiconductor manufacturing equipment design and manufacturing	Process design for implementation of PDM system	
5 1999	Equipment manufacturing	Project management support	
6 2000	LCD design and manufacturing	Process design for implementation of SAP	
7 1999-2000	Nuclear power business	Process design - the introduction of cost control / dynamics management system according to SAP PS / BW	
8 2000-2002	Power Electric production	Process design - the introduction of the SAP replacement of the journal specification host system	
9 2002-2003	Power Electric Systems manufacturing	Management support of roll-out project	
10 2003	Glass processing	Business process improvement (achievement of indirect employees half)	
11 2004	Vendor machine manufacturing	Process analysis and design for ERP system	
12 2004	The optical device production	Process analysis and design for ERP system	
13 2005	System development	Business process improvement (system development management man-hours 30% reduction)	
14 2005	Pharmaceutical manufacturing	Business process improvement (production, purchasing management man-hours 24.6% reduction)	
15 2004-2005	Auto parts sales	Re-modeling of business process and ERP system for roll-out of Europe sales branch	
16 2005-2006	Auto parts manufacturing	Management support of roll-out project for Czech manufacturing branch using for Global ERP template	
17 2005-2006	Power fee meter production	Business process analysis and design ~ SAP ERP implementation. Cost reduction · LT shortened due to the logistics chain re-design	
18 2006	Router design and manufacturing	Process analysis and design for implementation of ERP system	
19 2006-2008	IT manufacturing and sales	Internal Control J-Sox (documentation, test)	
20	Construction Equipment Manufacturing rental		
21	International business		
22	Airport business		
23	casting		
24	Fire extinguisher agriculture equipment		
25	Heavy construction equipment rental		
26			
27			
28	Construction heavy equipment manufacturing		
29			
30			
31	Automotive FA production		
32	Antenna production		
33	Semiconductor manufacturing equipment and defense		
34	Cosmetics manufacturing and sales		
35	Life insurance		
36	FA design and manufacturing		
	Other, 25 companies		
62 2008	System development	Process analysis and design of the group within the SAP common accounting infrastructure expansion	
63 2008	Auto parts manufacturing	Process analysis and design for implementation of ERP system	
64 2008	Curtains import and sale	Business process improvement(indirect costs by 30% reduction)	
65 2009	Dental medical equipment sales	Business process improvement (300 million half the parts inventory of)	
66 2009	Automotive parts sales	Process analysis and design for replace of HOST computer	
67 2009-2010	IT vendors	Business process improvement (efficiency of sales management business)	Implementation of business process monitoring for sales budget & Revenue
68 2010	Restaurant business	Business process improvement (indirect labor 23% reduction, BPO of)	
69 2010	Power Plant Construction and Maintenance	Business process improvement (investigation of overtime 200H, analysis)	
70 2010	Auto parts manufacturing	Business process improvement (implementation of emergency transport costs outside the budget zeroing)	
71 2010	Lithium-ion battery production	Process analysis and design to separate from the factory system	
72 2011	Die-casting	Business process improvement (cost management process re-design to generate a profit)	
73 2011-2012	Industrial machinery manufacturing	Process analysis and design for implementation of ERP system	
74 2013	Wire and related equipment manufacturing	Process analysis and design for implementation of ERP system	
75 2014	PB radio antenna construction	Business process improvement (to analyze the current state of the PM business, 70M ¥ reduce the process design of	
76 2014	PB radio antenna construction	Business process improvement (maintenance business of indirect man-hours more than 30%)	
77 2015	Perfume maker	Business analysis and evaluation for PLM system(Agile), man-hours greatly reduced, the design of the LT shortening process	
78 2015	IT vendors (new business)	New business modeling "BPM starting from the EDI", start-up support	
79 2015	IT vendors (utility company correspondence)	Bug rebuilding of the Web system test phase does not converge (program structure modeling)	
80 2015-2016	Manufacture and sale of medical equipment design	Concept and business process design for PLM system (Aras)	
81 2016-2018(現在)	In-vehicle audio equipment manufacturing and sales	Business analysis, evaluation and design. Selection ERP system ~ Project manager for implementation of SAP S / 4 HANA	
82 2018	IT vendors	BPM method training for expand of Intra-mart business
